Subject: City of Louisburg Ice Shields /Underlayment and cricket Requirements

The City of Louisburg requires the homeowner or contractor to obtain a permit prior to all roof repairs and new installations. The City uses the 2003 International Residential Code (IRC). We require Ice Shields and Underlayment in accordance with the IRC. Please reference IRC Chapter 9, paragraph 905.2.7.1.

"In areas where the average daily temperature in January is 25°F (-4°C) or less or when Table R301.2(1) criteria so designates, an ice barrier that consists of a least two layers of underlayment cemented together or of a self-adhering polymer modified bitumen sheet, shall be used in lieu of normal underlayment and extend from the eave's edge to a point at least 24 inches (610 mm) inside the exterior wall line of the building."

In addition the City requires all drip edges to be replaced and crickets/saddles in accordance with the IRC. Please reference IRC Chapter 9, paragraph 905.2.8.3.

If you have any questions please contact the Planning & Zoning office at (913) 837-5811.
